

DATA247

Minimum Viable Product — Document

June 2026 | Vijetasingh Rajput | Ahmedabad, India
data247official@gmail.com | https://data247.co.in

1. Product Overview

Product Name	DATA247
Tagline	From College to Cabin
Category	EdTech — Data Career Preparation
Platform	Progressive Web App (PWA) — Google Play Store (TWA)
Founded	April 2026
Launched	June 2026
Founder	Vijetasingh Rajput — Solo, Bootstrapped
Location	Ahmedabad, Gujarat, India
Website	https://data247.co.in
Play Store	https://play.google.com/store/apps/details?id=app.data247.prep
Target Users	Aspiring Data Analysts and Data Scientists in India
Primary Focus	Tier-2, Tier-3 cities and rural India — non-English learners

2. The Problem

India produces hundreds of thousands of data and analytics graduates every year. A significant proportion struggle to convert education into employment — not because of lack of talent, but because of lack of structured preparation access.

This problem is especially severe for learners outside major metros:

- Quality preparation content is expensive and out of reach for most learners
- Most existing platforms assume full English fluency — excluding millions of learners
- Coaching institutes charge fees that many candidates cannot afford
- Structured learning paths are rarely designed for non-traditional learners
- Learners from tier-2, tier-3 cities and rural India are systematically left behind

No existing platform offers a bilingual (English + Hinglish) structured preparation system for data careers — one of the fastest-growing career categories in India.

3. The Solution — DATA247

DATA247 is a mobile-first, structured interview preparation and career readiness platform — built specifically for the Indian learner who has been underserved by existing platforms.

Key differentiators:

- Bilingual content — English AND Hinglish — a deliberate design decision, not a translation
- Structured preparation system — guided learning, not scattered content
- Affordable — free to access, with a Pro tier planned for future versions
- Mobile-first — works on all devices including low-cost Android phones
- India-specific — salary data, job market, interview patterns specific to India
- Dual track — Data Analyst and Data Scientist — in one platform

4. What Was Built — V1.0 Feature Set

Feature	Description	Track	Status
MCQ Practice	720+ questions — 6 modules — 3 difficulty levels	DA + DS	Live
Flashcards	3D flip system — topic and role filter	DA + DS	Live
Morning Drill	5 daily questions — streak system — shareable scorecard	DA + DS	Live
Job Ready Quiz	10 questions — skill gap analysis	DA + DS	Live
Interview Guides	HR, Technical, Behavioural, Managerial rounds	DA + DS	Live
Module Notes	48 study PDFs — English and Hinglish — free download	DA + DS	Live
Salary Calculator	India 2026 market data — role, city, experience	Both	Live
Learning Roadmap	12-week personalised preparation plan	Both	Live
Bookmarks	Save questions and flashcards	Both	Live
Referral System	Unique code per user — reward on signup	Both	Live
Progress Tracking	Learning consistency and performance visibility	Both	Live
Admin Panel	Founder-only content management — real-time updates	Internal	Live

5. Content Library

MCQ Questions	720+ questions across 12 modules (6 DA + 6 DS) — 3 difficulty levels each
---------------	---

Study PDFs	48 notes — SQL (10 notes) + Python (14 notes) — available in English and Hinglish
SQL Topics	Fundamentals, DDL/DML/DQL, Aggregates, GROUP BY, JOINS, Subqueries, CASE WHEN, String Functions, Date Functions, Top 30 Interview Questions
Python Topics	Basics, Collections, Loops, Functions, File Handling, Pandas, Merge, Data Cleaning, NumPy, Matplotlib, Seaborn, EDA, Top 30 Interview Questions
Interview Guides	HR, Technical, Behavioural, Managerial — DA and DS tracks
Morning Drills	30 days of daily drills pre-loaded
Total Content	900+ pieces of structured learning content
Languages	All study notes available in both English and Hinglish

6. Founder's Role — Solo and Bootstrapped

DATA247 is a solo-founded, bootstrapped product. There is no co-founder, no external funding, and no technical team. Every aspect of the product was conceived, built, and launched by the founder alone.

Role	Contribution	Evidence	Timeline
Product Manager	Problem identification, product vision, feature prioritisation	Product Plan v1.0	April 2026
Curriculum Designer	12 modules, 3 levels, dual track structure (DA + DS)	Version Roadmap v1.0	April–May 2026
Content Creator	720+ MCQs, 48 PDFs in English and Hinglish	App content library	May–June 2026
UX Designer	All user flows, learning journeys, product experience	Live app	May 2026
Technical Builder	Full app built and deployed	GitHub repository	May 2026
DevOps	Play Store submission, TWA packaging, infrastructure	Play Store listing	June 2026
Legal and Compliance	Privacy Policy, Terms of Service, DPDP Act 2023	data247.co.in/privacy-policy	May 2026
Brand Manager	Logo, tagline, colour system, tone of voice	Brand standards doc	April 2026
Marketing	LinkedIn strategy, landing page, community management	data247.co.in	June 2026
Security	External security audit commissioned — MobSF v4.5.0	Security Report June 2026	June 2026

Built in under 3 months — from initial concept to live product — from Ahmedabad, India.

7. Development Timeline

Period	Phase	Key Milestones
April 2026	Project Initiation	Problem identified, market research, competitor analysis, product vision, GitHub setup
May 2026	Planning and Build	DPDP compliance, brand standards, MVP development, 720+ questions, 48 PDFs, admin panel, security audit
June 2026	Launch	V1.0 live at data247.co.in, Play Store Closed Testing active, landing page live, 900+ content pieces

8. Technical Infrastructure

App Type	Progressive Web App (PWA) — published on Google Play Store via TWA
Frontend	React — TanStack Start
Backend and Database	Supabase — PostgreSQL — Row Level Security on all 14 tables
Authentication	Email and Google OAuth
Content Management	Founder-only admin panel — real-time updates without app redeployment
Security	External security audit completed — MobSF v4.5.0 — June 2026
Compliance	DPDP Act 2023 compliant — Privacy Policy and Terms of Service live
Distribution	Google Play Store — package: app.data247.prep — TWA packaging complete
Website	https://data247.co.in — standalone marketing landing page

9. Why This Matters

- India has one of the largest and fastest-growing data career job markets in the world
- The majority of aspiring data professionals come from tier-2, tier-3 and rural backgrounds
- No structured, affordable, bilingual preparation platform existed for this audience before DATA247
- The Hinglish content format is the first of its kind in data career preparation in India
- The platform is built to scale — mobile-first, cloud-based, real-time content updates

DATA247 exists so that where you come from never determines how far you can go.

10. Future Direction

DATA247 will continue to evolve based on user feedback and market demand — with new role tracks, features and capabilities added over time.

The foundation built in V1.0 — structured content, bilingual access, mobile-first design — will serve as the platform for everything that follows.
