Market Gap

No app in India currently combines: Simple English explanations for data roles + Daily habit loop for interview practice + Salary Calculator for data professionals + Referral-driven community growth. DATA247 is the first app to bring all of these together for Data Analyst and Data Science roles.

2. Legal & Compliance — India DPDP Act 2023

India's Digital Personal Data Protection Act 2023 (DPDP Act) and DPDP Rules 2025 were notified on November 13, 2025. Full enforcement begins May 13, 2027. Penalties for violations can reach up to Rs 250 crore. DATA247 is committed to full compliance from day one of launch.

2.1 What the Law Requires

Requirement	What It Means for DATA247
Consent	Users must give clear, specific, informed, and unambiguous consent before any personal data is collected.
Purpose Limitation	Data collected can only be used for the purpose it was collected for. Not for advertising or sold to third parties.
Data Minimisation	Only the minimum data necessary must be collected. DATA247 collects only: name, email, role selection, and app progress data.
User Rights	Users have the right to access, correct, and delete their data. Deletion must be completed within 7 days.
Children Protection	Users under 18 years of age are defined as children. Processing children's data requires verifiable parental consent.
Data Breach Reporting	Any data breach must be reported to affected users immediately and to the Data Protection Board of India.
Grievance Officer	A grievance officer must be appointed and their contact details must be clearly published in the app and privacy policy.
Privacy Notice	A clear, standalone privacy notice must be shown whenever personal data is collected.

2.2 How DATA247 Complies

Compliance Area	Action Taken	Status
Consent Checkbox	Signup screen has mandatory checkbox. Cannot sign up without ticking.	Implemented
Age Verification	Date of birth field. Users under 18 cannot create an account.	Implemented
